***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a video indexing using high quality audio clips. The independent claims identify the feature of "acquiring high quality audio clips during an audio/video sequence recording, processing and transmitting the audio/video sequence and the high quality audio clips using a joint audio/video processing pipeline, wherein the user can selectively view the audio/video sequence using the high quality audio clips as video indices". The closest prior art, Toklu et al discloses a conventional video browsing and editing by employing audio, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Massey, Jr. discloses a method for the sale of movies prior to the production thereof.

Jones et al discloses an archiving and sharing of multimedia content.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bob Chevalier whose telephone number is 703-305-
